

A close-up photograph of a human eye. The eye is looking directly at the camera. The iris is replaced by a bright blue, square-shaped contact lens. The lens has a dark blue square in the center, and a small white square is visible within that dark square. The surrounding skin and eyelashes are in soft focus.

*Sometimes being
"level-headed" can be an
advantage !*

A volte essere quadrati ha i suoi vantaggi!

La continua evoluzione nel settore dei lavelli da cucina, ci ha spinto a sviluppare un nuovo prodotto da abbinare alle linee con vasche quadrate o minimamente raggiate.

La nuova forma quadrata, in alternativa a quella tonda, si adegua alle scelte di design degli ultimi anni. La nuova **SERIE 7000** si inserisce sul mercato rispecchiando i canoni di alta qualità e scelta dei materiali che contraddistinguono tutta la produzione **ALBA2MPM**.

The constant evolution of the kitchen sink sector urged us to develop a new product to match square or slightly radiat kitchen sinks.

An alternative to the rounded shape, the new square kitchen sink is consistent with the most recent design trends.

In approaching the market, the new **7000 SERIES** reflects the high quality criteria and careful selection of materials characterising all **ALBA2MPM** products.

La **SERIE 7000** è disponibile nelle versioni in acciaio satinato o lucido, con diversi troppo pieni e il movimento saltarello corredato da manopola quadrata.

Da oggi vedere le cose in un'ottica nuova dipende solo da te.

*The **7000 SERIES** is available in the brushed or polished steel versions, with different overflow pipes and pop-up system equipped with square handle.*

From now on, looking at things from a new perspective is up to you!
